

## How to Join Bridgit in a Video-Conference

Bridgit is a web-based software program that allows individuals or groups to connect using either a Computer or Smartboard. This program is one that allows any person in the Bridgit Session to share their desktop.

To use the Bridgit Server for the Bell e-Learning Centre and Chinook's Edge School Division do the following:

1. Open your web browser and go to

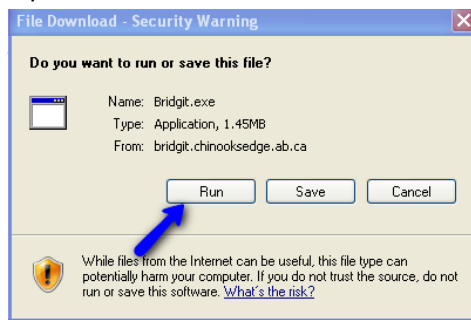

2. From that page click **Download Software**

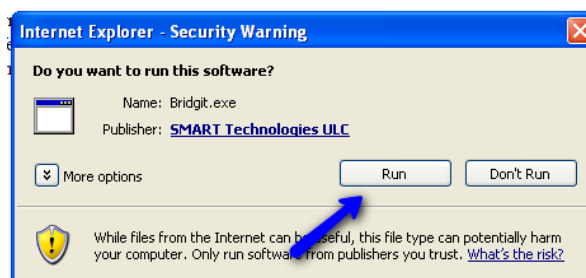

### [Download Software](#)

**Note:** Before downloading this software, enable cookies in your Web browser.

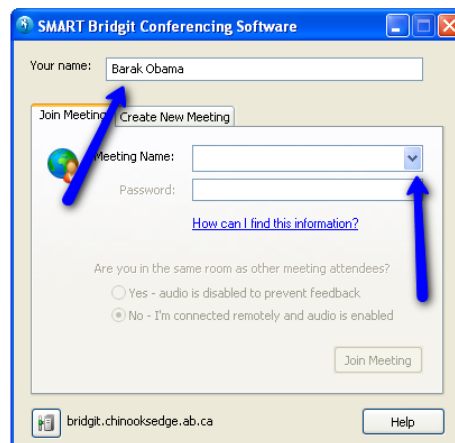

3. From the File Download Pop-up Window choose **Run**

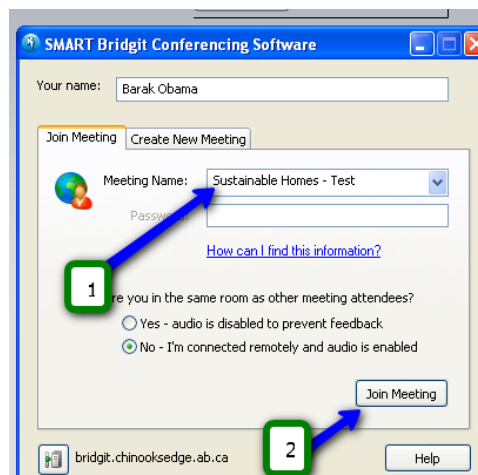

4. A second window will open asking if you want to run the software – choose Run

5. A third Pop-up window will appear – the SMART Bridgit Conferencing Software window. Insert your name in the box provided. Then from the Join Meeting Tab click the down arrow key next to the Meeting Name box to identify your meeting.

6. Once you have found your meeting. Click Join Meeting.

7. If you get a request for a password, please enter – **Sm@rt**, although this is usually only required by the host site, the person creating the meeting.
